Teaching children to “play” on words

How does one explain to a child a fork in the road is not the fork used to eat? In “When My Nose Runs Where Does It Go?,” a children’s picture book by Jennifer Rogala, children learn the different meanings behind words. Bright colors and eye-catching illustrations make the learning not only entertaining, but visually stimulating.

Through asking silly questions, the reader learns numerous definitions of words. Most of the questions focus on parts of the human body and actions the body can perform.

Rogala has worked in the area of healthcare technology for 15 years, including medical technology publishing, and now as a mother writes stories for children. Jennifer lives outside of Boston with her husband, twin daughters and two cats.

“When My Nose Runs Where Does It Go?” is available in softcover (ISBN 1-58939-866-1) from Virtualbookworm.com, Amazon.com and [Barnes and Noble.com](http://BarnesandNoble.com). The book can also be ordered from most bookstores around the United States and the United Kingdom. More information can be found at the author’s official website, www.jenniferrogala.com.
